

MATH PERSPECTIVES

PROFESSIONAL DEVELOPMENT

for Educators of Grades Pre K-5 Mathematics

Math Perspectives professional development helps schools/districts become on-going learning organizations that directly and ultimately benefit students. Our courses help teachers organize for the effective teaching and learning of mathematics in the classroom and enhance their understanding of:

- *Important mathematical concepts
- *How children learn and develop mathematical thinking
- *How to assess mathematical understanding and to teach in response to children's needs
- *Techniques for implementing an exemplary math program
- *How to create a classroom learning environment that ensures the success of all students
