

MATH PERSPECTIVES

PROFESSIONAL DEVELOPMENT

Assessing Math Concepts - Online. Anywhere.

Professional Development is available through Math Perspectives for teachers using Assessing Math Concepts (AMC). The AMC courses are designed for teachers, math coaches, interventionists, teacher-leaders, and other educators of K-2+ Grade mathematics. Please contact Sheryl Russell at sheryl@mathperspectives.com to talk about scheduling courses for your school or district.

Kathy Richardson answers questions from teachers across the country who are using AMC and Developing Number Concepts (DNC). If you have a question, please submit it to Kathy at info@mathperspectives.com. She will reply to your questions within a few days via a personal email. Once we have several Q&As, we put them together in an email to send to teachers on our mailing list. Past copies of the newsletter can be found at mathperspectives.com.

We also invite you to follow @MathPerspectives on YouTube, Twitter, LinkedIn, Facebook and Instagram.
